**Update:** The Joint Commission's New Direct Data Submission Platform

### ORYX® Measure Submission Timelines Established

On July 5, 2022, The Joint Commission's in-house Direct Data Submission Platform (DDSP) onboarding began for organizations to accept their initial invitation to access the new platform (see the June 2022 issue of *Perspectives* for additional information related to the new DDSP). The following timelines provide the dates health care organizations are required to report their ORYX® performance measures.

#### Calendar Year (CY) 2021 Data Submission Timeline

- *July 5–8, 2022:* Initial invitations were sent to organizations' Signatory Authority for onboarding to the new platform.
- *August 1, 2022:* DDSP chart-abstracted measure module opens, allowing health care organizations to enter their remaining CY2021 chart-abstracted measure data.
- *October 3, 2022:* DDSP electronic clinical quality measure (eCQM) module opens, allowing health care organizations to upload and submit their CY2021 eCQM data.
- *December 31, 2022:* Deadline to submit CY2021 chart-abstracted measure and eCQM data.

#### Calendar Year 2022 Data Submission Timeline

- *January 2, 2023:* DDSP chart-abstracted measure and eCQM modules open to allow healthcare organizations to enter CY2022 chart-abstracted measure data and upload and submit eCQM data.
- *March 15, 2023:* Deadline to submit CY2022 eCQM data.
- *April 30, 2023:* Deadline to submit CY2022 chart-abstracted measure data.

#### Calendar Year 2023 Data Submission Timeline

- *May 2023:* DDSP available for CY2023 data submission of 1Q2023 chart abstracted measure data and CY2023 eCQM data.

#### Additional Resources:

Health care organizations can visit the Measurement Resources page under "Supporting Materials" on The Joint Commission's website for additional information, including **important opening dates, data submission deadlines**, and upcoming webinars. In addition, the recording, slides, and transcript are available on the Pioneers in Quality® General Sessions page for the Joint Commission's Direct Data Submission Platform informational webinar that was held in June.

For more information and a detailed list of all ORYX requirements and measures, visit the Performance Measurement page on The Joint Commission's
